

EMF REMEDIATION & GROUNDING

LMP (liquid metallic polymer) – is specially created for remediating negative and harmful energies, and to help create a 'grounded' property. **\$50**

LMP is applied (ok to use a Q-tip) to the inner four corners of windows, doors and mirrors for proper energetic remediation (the metal part of each corner-inside the building). When a window is divided by columns, remediate all 4 corners of each frame. For doors, just remediate the 4 corners.

Toilets/Sinks – Place 2 drops of LMP on the incoming water line to your toilet, and 2 drops on the pipeline of each sink (below the counter).

Car – Place 2 drops of LMP on 2 places on the dashboard and the bottom of the car (any part of the engine) to bioenergetically ground the car or truck engine. Place 2 more drops on the back of the 'tv' screen/monitor if the car has one that extends above the dashboard.

House Address – It seems silly, but put 2 drops on one of the numbers of the 'metal' or other house address on your home; this balances the sha chi.

Circuit Breaker – Place 1 drop if you also use 2 EMF stickers, or 2 without.

Home Meter – Place 1 drop on the underside of the meter; no EMF stickers required.

iWatch and Wireless headphones – Place 1 drop on each ear piece and watch.

EMF remediation stickers – turn harmful energy into healing energy – making your energy field stronger! Place 2 stickers on most devices as shown in the photo. Newer computers require 4 stickers, iPhone 11 and above require 3; routers, 1; and circuit breakers, 2. Desktop computers need 1 on the screen and 1 on the tower, and LMP makes these even better. **\$35**

The **QiFi** looks like a spaceship, yet it remediates EMF for up to 2 miles. The technology is very much the same as the laser we use on our bodies (videos on my Youtube), and many of our customers purchase for their health tool. Put it in a location in the home closer to towers, hills and other areas high in electricity or EMF, and just plug it in. **\$1300**

Q pendant – a wearable or pocketable shape has been extensively studied and designed to block the harmful effects of 5G. This new increase in technology is going to cover every inch of the earth, so it will be more intense and harmful to the earth and our bodies than 4G. Keep your body free from harm, with a strong immune system and energy field, by keeping a device with you at all times. **\$60**
