

QUANTUM PENDANT

Geometry • Polarity • Frequency • Resonance

When you wear the quantum pendant, it puts a force field around you.

Humans have an electromagnetic field (EMF), so does the earth. All our beloved phones, tablets and computers also have EMFs – but these disrupt those of our body and earth – specifically the plasma energy field, aka "Biofield." I always say, "When the biofield is intact, **Healing is Limitless.**" The Biofield was discovered in 1974 by Dr. Fritz Albert Popp. All of our modern devices and especially wifi routers and cell towers alter and often destroy the biofield. In order to stay healthy, we must keep the biofield intact. This is why we use **EMF** remediation and **Vastu** – to restore the biofield and to have a 'shield' that not only blocks the harmful EMFs, but actually converts them into healing energy. As long as the energy is the healing kind, we can benefit. When these energies are spinning and altering our biofield, chakras, meridians and our minds, they are problematic.

For over 17 years we have been offering EMF remediation and Vastu techniques for your home, office and car. Now we are offering a wearable device. Times have changed and wearables are now essential. Why? Because 5G will be covering every inch of the earth, and all it takes is a little vulnerability for someone to go from health to the opposite. Why not wear something in your pocket or around your neck that can prevent the harmful effects? We have found shungite

rocks to be protective against a computer or phone's EMF. The only device so far that has tested strong enough to block the harmful effects of 5G is the **Quantum Pendant**. As Spring of 2020 unfolds, more and more of the earth will be covered in 5G, so now is the time to be protected. Once the 5G is everywhere, hopefully we will have more options, because we can study the effects in more depth. Right now, this is the best we can offer. A quantum level, layered, sacred geometric design that has been improved to have maximum effect in converting the harmful energies into positive, and to absolutely keep your biofield protected from the harmful waves of 5G.

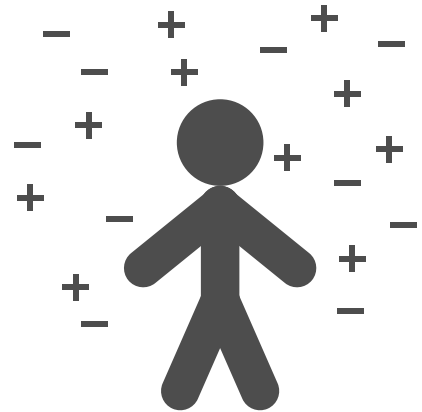

Vastu:

When Vastu energetics are poor, your human battery can run down easily. Your health may suffer regardless of what food, nutritional supplements, or therapeutic techniques you use.

Wear the **Quantum Pendant** at all times and plan to Vastu the home, car and office. We offer a **DIY Vastu Guide** online that you can download. We offer in home remediation, and remediation tools you can purchase to make your living space a healing space, in which you won't need to wear a pendant, because your home environment will be safe and therapeutic.

The Ideal Field:

In the ideal field, the + and - charges are perfectly balanced in the environment, magnificently supporting the body's biofield.

The Pendant:

5G is said to cover the entire earth and will be akin to microwaves that we will be living inside of at all times. We get kicked when we are already down. Emotional, nutritional and physical stress are enough to get us down – then add 5G exposure, and it will be so easy to become ill. Why not use a **Simple Solution** and keep this pendant on the body at all times to prevent from going down further? For what it can do for you and your loved ones, it is invaluable and easy to use.
